## About me

I'm passionate front end engineer with experience developing complex, high profile web applications collaborating with both small and large teams. I specialise in JavaScript, familiar with the agile environment and leveraging modern technologies such as React and Redux. Familiar with server-side languages like Node.js and PHP.

## Experience

### Amdocs

*Software Engineer - React.js Developer (Nov 2017 - Aug 2019)*

- Build complex front end applications from absolute scratch to a complete product.
- Experience with UI/UX design, optimize across various screen sizes and cross-browser.
- Design and implement crucial business features.
- Working in agile methodology.

### Techfinancials - Herzliya

*Fullstack Developer - PHP, Wordpress, React.js (May 2016 - Oct 2017)*

- Build responsive web and mobile web applications UI/UX from scratch.
- Design and develop new business features.
- Create new WordPress themes and plugins for customers.
- Scrum master, control over agile process in the team.
