About me

I'm passionate front end engineer with experience developing complex, high profile web applications collaborating with both small and large teams. I specialise in JavaScript, familiar with the agile environment and leveraging modern technologies such as React and Redux. Familiar with server-side languages like Node.js and PHP.

Experience

2020 - Current

- After I left Amdocs for travelling and being on military reserve duty due to COVID-19. I had to care for a family member after an injury. Since then, I'm fully available to work now.

Amdocs

Software Engineer - React.js Developer (Nov 2017 - Aug 2019)

- Build complex enterprise level micro-service front end applications from scratch using React.js and redux.
- Experience with UI/UX design, optimize across various screen sizes and cross-browser.
- Writing unit tests using Jest and Enzyme.
- Design and implement crucial business features.
- Working in agile methodology.
- CI/CD process with Jenkins and kubernetes.
- Working with Node.js and AWS.

Techfinancials - Herzliya
